WINTER 2020

(AKA, SET A GOAL TO GET WHAT YOU WANT)

Savette has been hard at work on the SmartWish. It's a device that converts your wishes into goals. Most wishes cost money (video games, movie tickets, toys.) But with the SmartWish, you can afford the things you really want. Here's how you can turn your wishes into goals:

STEP 1: Write down your goal. Example: A new bike costs \$150.

STEP 2: Write down how much money you can save each week.

STEP 3: Divide your goal by your weekly savings.

(This tells you how many weeks it'll take to save for your goal.)

HINT: IF YOU WANT TO REACH YOUR GOAL FASTER, SAVE MORE EVERY WEEK

THE M3 SMARTWISH STRATEGY

Here's an example of how to achieve your goal:
